# Academic programmes

A diploma to match your child's objectives

During the school year, Chantemerle proposes two academic pathways:

- **Swiss pathway in French** preparing for the prestigious Swiss Federal Matura. The Matura allows automatic access to all Swiss universities, it is also well accepted by USA/UK colleges. Students new to French join our **French immersion programme** and prepare for the **bilingual French/English Matura**
- **International pathway in English**. A sound alternative to the IB diploma that prepares for the Cambridge IGCSE and the A Level qualifications.

**Small classe size allows for individual attention.**

Through solid and rigorous learning methods, we teach our students to become autonomous and efficient.

The efficiency of our method is demonstrated by our high success rates in both national and cantonal exams.
